Parent Survey  
2022 - 2023

Comprehensive Counseling Program Systemic Assessment  
Leveraging feedback to improve counseling services

## Thank you for allowing us the opportunity to work with your data!

Your report is organized as follows:

- Overview: this section includes a high-level snapshot of the survey data.
- Area of Focus: this section highlights answers to survey questions that could provide insight into opportunities for improvement.
- Desired Programs & Support: this section provides insights on what programs or support students want.
- Demographics: this section contains information about the students who completed this survey.
- Appendix: this section includes details about how this report is generated.

## Cautions:

While gathering feedback from stakeholders is critical for program improvement, please be aware that voluntary response surveys have limitations. Before drawing conclusions on survey results, please consider the following:

- Often, only those with strong opinions will complete surveys. The more surveys are taken, the more likely your results reflect the opinion of the overall population.
- If the entire population did not have equal access to complete the survey, your results may have left out subgroups of the people (i.e., those without computers, different languages, illiteracy, etc.).
- Occasionally, survey respondents do not answer questions honestly. This may affect the overall accuracy of your results.

Please keep this information in mind as you draw conclusions from your reports.

# Overview

27

Data Points Captured Per Survey

39

Survey Responses Received

< 80%

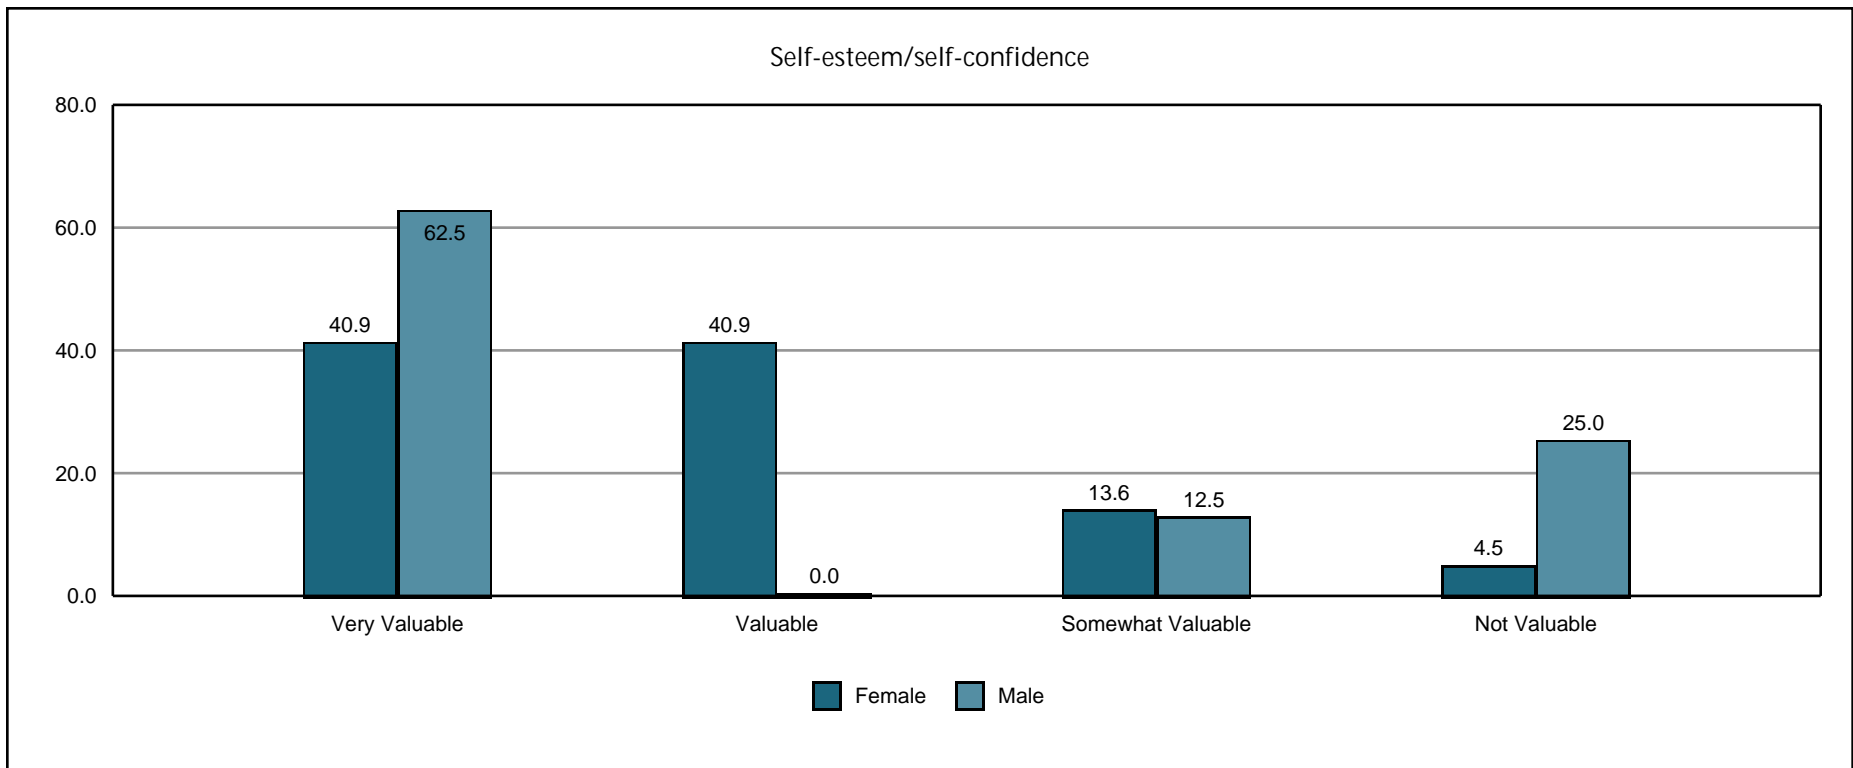

Confidence Percentage

Each survey contains 27 unique data points including demographic information, responder sentiment, and counseling specific feedback. Your report includes insights based on 39 surveys taken. With your school's estimated total population size of 326\*, you can be <80% confident that the responses represent the needs of your population.

\* Population size estimated using 2022 SOAR data.

Demographic Data of Survey Respondents

POSSIBLE ACTION PLANS:

[Increase all students Social Emotional Learning](#)

[Increase All Students Access to mental health services](#)

[Promoting a positive school climate](#)

[Increasing connection and community involvement through Latinos in Action](#)

[Connect with Kids](#)

[Increasing resiliency levels](#)

[Functional Behavioral Assessment-based Interventions](#)

## Parent Survey 2022 - 2023

5. Is your student a first-generation college student? A first-generation college student is a student whom neither parent graduated with a 4-year degree (in the U.S.)

Answers	Responder Count	Percentage	State Percentage
Yes	4	10%	19%
No	35	90%	78%
Prefer not to answer	0	0%	3%

6. What type of grades does your student typically earn? You can also choose your answer based on approximate Grade Point Average (GPA).

Answers	Responder Count	Percentage	State Percentage
Mostly A's (3.7-4.0)	33	85%	57%
Mostly B's (2.5-3.3)	4	10%	27%
Mostly C's (1.7-2.3)	2	5%	11%
Mostly D's (1.0-1.3)	0	0%	3%
Below D's (1.0 or below)	0	0%	2%

7. Please evaluate the services your student has received from their school counselor.

Classroom school counseling lessons and activities (e.g., college and career search, interest inventory, financial aid/scholarships, life skills, suicide prevention, etc.)

Answers	Responder Count	Percentage	State Percentage
Very Helpful	19	49%	26%
Helpful	13	33%	30%
Somewhat Helpful	4	10%	19%
Not Helpful	2	5%	8%
Not Aware	1	3%	12%
Not Applicable	0	0%	5%

College and career awareness and exploration activities (e.g., Utah College Application Week, college tours, financial aid nights, job shadows, internships, career fairs, resume building, CTE pathways, online college/career exploration, etc.)

## Appendix

Some of the recommendations in your report are determined by assessing the statistical significance of differences between groups. Statistical significance means that the observed difference between the subgroups' responses was large enough that it most likely did not occur by chance. Our software uses a one-tailed z-test of significance comparing subgroups to the overall population and a 95% confidence level (p-value = .05). P-value is the probability of the result occurring by chance. Our software is designed to determine significance by comparing all filter demographic questions to the overall population with a count greater than 30 (unless less than 30 responded to this survey). Keep in mind that large populations can inflate statistical significance.

This report may contain groupings, which are done to improve report readability, group logically related responses, and decrease the impact of outlier data points.

Finally, responses such as "N/A" or "Don't know" were typically excluded from our analysis. While these types of responses can occasionally help improve programs, they tend to provide little in the way of actionable takeaways for school counselors. The exception would be if responders are overwhelmingly responding "N/A" to questions asked.

If you would like to perform additional analysis of your survey responses, please download the raw data from the [CTESurveys.com](https://CTESurveys.com) dashboard.
